

1400 Series Digital Deskphones

The 1400 Series Digital Deskphones is a new, value-priced family of deskphones designed to meet communication needs with the quality and reliability you expect from Avaya.

The 1400 Series Digital Deskphones family is designed for the same user profiles as the 9600 Series IP Deskphones or the 1600 Series IP Deskphones. By providing a range of endpoints covering the differing needs of users, Avaya makes it possible for companies to equip their workforce with deskphones that look great, sound better, enhance productivity, and turn communications into a competitive advantage. With similar industrial design, the 1400 Series Digital Deskphones, 1600 Series IP Deskphones and the 9600 Series IP Deskphones may be deployed in mixed environments or on their own, delivering:

- Digital telephones for the value-oriented customer
- Straightforward, familiar access to the most common telephony features
- Cost effective, competitive price point
- Quality and reliability you expect from Avaya

For businesses seeking an easy, cost-effective solution for digital networks, Avaya presents the 1400 Series Digital Deskphones. With features and capabilities of the Avaya digital/DCP network, these phones offer an attractive upgrade from older systems or an addition to your existing Avaya phone solution portfolio.

The 1400 Series Digital Deskphones combine traditional telephone features such as dual LED indicators and fixed feature buttons (e.g., conference, transfer, hold) with contemporary innovations such as softkeys, navigation wheel and a context-sensitive user interface.

Also standard on the 1400 Series Digital Deskphones: speakerphones, white backlit displays and multi-line capabilities. These stylish phones are a smart addition to any retail store, branch or corporate office.

The phone's streamlined industrial design reflects its function as a true business-class communications device.

A Familiar, Functional Interface

The 1400 Series Digital Deskphones combine the best of past and present. Fixed keys – familiar to any phone user – provide easy access to the most common features. Meanwhile, flexible softkeys provide contextual guidance and prompts for ease of use and efficiency.

Built-in Investment Protection

The 1400 Series Digital Deskphones have been engineered to adapt to your company's growing needs. The headset interface allows you to attach headsets on your 1408 Digital Deskphone and 1416 Digital Deskphone, while the 32-button expansion module for the 1416 Digital Deskphone can be custom-programmed to fulfill a wide range of specific user needs.

Clear Sound, Clean Looks

The 1400 Series Digital Deskphones offer clear, clean audio that will more than satisfy the most discerning users. All models come with an integrated speakerphone.

Top Value for Your Communications Dollar

You expect top quality and reliability from Avaya and the 1400 Series Digital Deskphones deliver by giving you a solidly built phone that can stretch your investment

and lower total cost of ownership. It's a cost-effective solution that delivers significant competitive advantages at its price point.

For Walkup users: the 1403 Digital Deskphone (IP Office only). The Avaya 1403 Digital Deskphone is designed for the Walkup user and the Everyday user. It's ideal for locations such as common areas in offices, stockrooms, lobbies, or drop-in desks. Visitors – including customers – are examples of Walkup users who need a phone with a simple, familiar interface. It's also perfect for the Everyday phone users for whom a phone is not the one critical piece of their communication needs.

1403 Digital Deskphone highlights:

- Supports 3 administrable feature buttons
- Each button includes dual LEDs (red, green) providing explicit status for the user
- Includes fixed feature keys for common telephone tasks including conference, transfer, drop, hold, mute
- Includes high-quality speakerphone
- Two-line by 16-character display, white backlit for easier viewing in all lighting conditions

For Everyday users: the 1408 Digital Deskphone. Everyday users typically rely on several forms of communication including voice and email – and while they require a quality telephone, their telephone use is relatively light or straight-forward in nature. Cubicle workers and sales staff within a retail store are examples of Everyday users for whom the 1408 Digital Deskphone delivers a productivity-enhancing telephone.

1408 Digital Deskphone highlights:

- Supports eight administrable feature buttons
- Each button includes dual LEDs (red, green) providing explicit status for the user
- Includes several fixed feature keys for common telephone tasks including conference, transfer, drop, hold, mute
- Includes high-quality speakerphone
- Supports a broad portfolio of wired and wireless headsets through its integrated headset jack
- Large capacity contacts and call log applications that can enhance productivity and personalization
- Context sensitive user interface along with three softkeys and a four-way navigation cluster – ideal for scrolling through the local contacts list or call logs
- The three-line by 24-character display is white backlit for easier viewing in all lighting conditions

For Navigators: the 1416 Digital Deskphone. The Avaya 1416 Digital Deskphone is designed for the Navigator type user. Receptionists, assistants, and managers are examples of Navigator users – people who answer incoming calls, transfer customers to different departments or extensions, and monitor several line appearances throughout a typical day. For the Navigator user, the 1416 Digital Deskphone provides the most one-touch line/feature/speed-

dial buttons without the need to scroll through on-screen lists.

1416 Digital Deskphone highlights:

- The 1416 Digital Deskphone supports 16 administrable feature buttons on the phone itself – and a 32-button expansion module provides access to a total of 48 feature keys or speed dial buttons
- Each of the buttons features a dual LED (red, green) providing explicit status for the user
- For a familiar look and feel, the 1416 Digital Deskphone includes several fixed feature keys for common telephone tasks including conference, transfer, drop, hold and mute
- In addition, the 1416 Digital Deskphone includes a high-quality speakerphone, and supports a broad portfolio of wired and wireless headsets through its integrated headset jack
- Context sensitive user interface along with three softkeys and a four-way navigation cluster – ideal for scrolling through the local contacts list or call logs
- The viewing angle of the display on the 1416 Digital Deskphone is adjustable and measures four lines by 24 characters
- Additional caller related information is displayed with active appearances for easier call handling
- The display is white backlit for easier viewing in all lighting conditions
